

## **Luminary Creeping Bentgrass**

Zander Sod offers Luminary Creeping Bentgrass which is developed from a broad genetic base and the latest germplasm. Luminary performs well in all regions throughout Ontario. It is a top performing bent that meets the demands of today's Golf Course Superintendent.

### **Characteristics:**

- Competitive against *Poa annua*
- Optimum density allowing low mowing heights
- Holds density in the summer months
- Fine leaf texture yet very durable
- Medium green colour
- Compatible colour and texture for inter-seeding with other varieties
- Early spring green up plus maintains colour into fall season
- Resilient and wear tolerant plus good recovery from ball marks
- Improved resistance to dollar spot and snow mould diseases
- Reduced fungicide needs
- Very high NTEP ratings

### **Ideal Use:**

- Applications include greens, tees and fairways
- Lawn bowling greens
- Grass tennis courts

### **Harvesting Options:**

- Available in small and big roll formats
- Produced on USGA spec sand

Zander sod offers supply or supply and installation for your project. Regardless of your needs we will deliver a superior product and provide service that is second to none.
