

Mackenzie Tyee (Aggressor Pro) Creeping Bentgrass

Zander Sod offers Aggressor Pro blend a superior combination of two of the top rated bentgrass varieties in the industry. The characteristics of these two varieties complement each other to create a top performing bent to meet the demands of today's Golf Course Superintendent.

Characteristics:

- Highly competitive against Poa annua
- Very dense allowing low mowing heights
- High heat, wear and stress tolerant
- Less thatch production
- Resistance to Dollar Spot, Brown Patch and Fusarium Patch
- Bright true green colour
- Reduced ball marks and divots
- Less syringing
- Less weed invasion
- Reduced fertilizer and pesticide requirements
- Very high NTEP ratings

Deal Use:

- Applications include greens, tees and fairways
- Lawn bowling greens

Harvesting Options:

- Available in small and big roll formats
- Produced on USGA spec sand and on a native sandy loam that complements Ontario soils

Zander sod offers supply and supply and installation for your project. Regardless of your needs we will deliver a superior product and provide service that is second to none.
